

Appln. No. 09/242,974

Attorney Docket No. T2146-906088

REMARKS

Applicant respectfully requests reconsideration of this application as amended. Claim 20 has been amended to recite that there are three distinct locations each for receiving memory. In a first location is the main memory, in a second location a first RAM-type working memory and in a third location a second RAM-type working memory. The bus connects the processor to the main memory, the first working memory and the second working memory.

Anderson at least fails to teach this feature. Specifically, in Anderson, a single memory 20 stores a plurality of registers. The switching taught by Anderson occurs within the single memory 20. Moreover, Anderson fails to teach or suggest the unpredictably switching as previously discussed.

Claim 20 is thus clearly patentably distinguishable therefrom. In that Griffin fails to overcome these deficiencies, the pending claims are allowable over the references of record. A Notice of Allowance is respectfully requested.

Should the Examiner believe that any further action is necessary to place this application in better form for allowance, the Examiner is invited to contact Applicant's representative at the telephone number listed below.

The Commissioner is hereby authorized to charge to Deposit Account No. 50-1165 (T2146-906088) any fees under 37 C.F.R. §§ 1.16 and 1.17 that may be required by this paper and to credit any overpayment to that Account. If any extension of time is

required in connection with the filing of this paper and has not been separately requested,  
such extension is hereby requested.

Respectfully submitted,

JHV:jab
